Meet our STARS Demo Day

Cohort on Smart Energy and Eco-home
Wednesday, 23 January 2019

About STARS Programme

Synergies:

Accelerate the development of startups and enhance the competitiveness of Hong Kong industries

Training:

Tailored mentorship programme developed and delivered by industry experts

Angels:

Opportunities to meet angel investors from valuable network

Resources:

Dedicated one-stop platform providing technologies and services

Support:

Build your business through expansion plans and go-to-market opportunities

Cohort on Smart Energy and Eco-home

Riding on the success of the last cohort on “Internet of Things”, HKSC joined hands with CLP Power Hong Kong Limited and launched the “Smart Energy and Eco-home” cohort in 2018/19. Twelve selected startups are equipped to showcase and pitch their innovation products to angel investors and venture capitalists today.

This year, CLP Power Hong Kong Limited (CLP) is our Programme Collaborator.

This cohort of STARS Programme was launched in August 2018 with 12 selected startups hailed from Hong Kong, Singapore, Sweden and the US. Leveraging on the mentorship from FHKI and CLP, some of the startups have already launched their products in the market for pilot or trial scheme.

About Hong Kong Startup Council

Founded in 2016 under the Federation of Hong Kong Industries (FHKI), Hong Kong Startup Council (HKSC) aims to serve as a platform to connect Hong Kong startups, industrialists, entrepreneurs and investors to enhance synergies between traditional and new economies.

Objectives

- to create a platform where FHKI provides support to nurture Hong Kong startups;
- to facilitate and foster collaborations between startups and FHKI members;
- through pursuing the above endeavours to reinventing Hong Kong Industries.

香港工業總會

FHKI Federation of
Hong Kong Industries

About FHKI

The Federation of Hong Kong Industries (FHKI) was established under the Federation of Hong Kong Industries Ordinance (Cap 321 of the Laws of Hong Kong) in 1960. The objectives of the FHKI are:

- to promote and foster the interests of Hong Kong's industrial and business communities;
- to promote trade, investment, technological advancement, manpower development, and business opportunities in Hong Kong;
- to represent business's views and advise the government on policies and legislation which affect business

About CLP

CLP Power Hong Kong Limited (CLP Power) operates a vertically integrated power supply business in Hong Kong, covering electricity generation, transmission and distribution, and marketing and customer services. It supplies highly reliable electricity 6 million people in its supply area including Kowloon, New Territories and most of the outlying islands.

To offer better services tailored to customers' needs and in the ongoing digital transformation of our business, we will continue to focus on the development of new smart service platforms for households and businesses, as well as technologies such as robotics solution, digitalisation, and data analytics to enhance our operational performance, and contribute to a greener and smarter Hong Kong.

Aurabeat Technology Limited @HK Acoustic-aided Air Filter

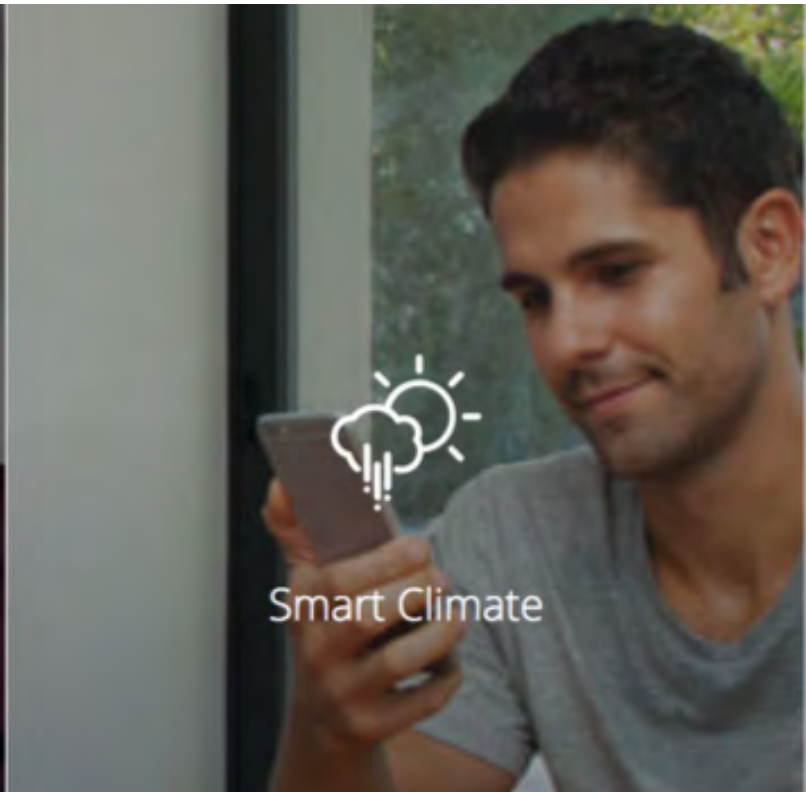

www.aurabeat.com.hk

Aurabeat Technology Limited has developed an air filtration technology - Acoustic Air Filtration which cleans air with sound energy. This technology greatly enhances air filter performance while reduces the energy consumption of the filtration process at the same time. Acoustic Air Filtration can be integrated with existing air filter technologies. Existing air filter manufacturers would be Aurabeat's collaborators/technology licensees rather than competitors.

5

Demaryo Labs Limited @HK Smart Home Control Devices

Demaryo Labs Limited focuses on developing consumer services of smart home control and data collection through blockchain technologies. It contains a single smart home app that works with 80,000 different devices and appliances.

Technology Product Information Solutions For Customer Impact Resources Blog About

For Energy Managers

Managing Energy by Choosing the Right Equipment

Energy use and management is considered a critical expense item for many companies. As an energy manager, you're charged with optimizing everything from energy contracts to physical infrastructure, and with getting the data you need to prove performance. One important component is choosing the right equipment and putting the most effective physical infrastructure in place on the ground.

enVerid pioneered a solution to do just that. In conjunction with National Renewable Energy Laboratory, US DOE, MIT and others a completely new approach to reducing 20% of energy use in buildings. That solution is now in place with some of the leading companies in the world, and installed in GSA buildings, as

enVerid Systems, Inc. is committed to improving energy efficiency and indoor air quality (IAQ) in buildings worldwide through its innovative HVAC Load Reduction® (HLR®) solutions. The HLR® system utilizes a combination of novel, efficient adsorbents to capture molecular contaminants and clean the air within. The result is the development of leading products that significantly lower upfront HVAC system costs and reduce annual energy consumption by 20-30%.

FMTP Power @SE Smart Grid / Mircogrid Portable Multimeter for Power Control

GRIDEX^{BY} fntp

**Digitalization of the Power Grid is mandatory to
address actual and future needs**

fntp

www.fmtppower.com

FMTP Power designs products and solutions for the power industry and smart grid digital networks. GridEx[®] is a cyber secure tool with built-in intelligence, 100% safe to be connected on “live” digital networks. It captures the information from the network on its own without disturbing the power grid. It analyses and filters from the huge amount of data, significant, understandable and relevant status to the field engineer, for him to detect errors, solve alarms and assess the situation and eliminate and mitigate the risk of blackout.

GreenSafety Technology Limited @HK Driving Safety Alert System

GREENSAFETY

www.greensafety.com.hk

GreenSafety Technology Limited collects and analyses driving behavioral data on their self-developed platform among the driving safety alert system. Coupled with the safety alert sensor, the live sound alert will be given when drivers exhibit dangerous behaviors. The surveillance system features up to the advantages of real-time view, instant back-pass and applicable to a wide range of vehicles, such as 35-ton tractors, dangerous goods vehicles and so on. It also contains face recognition as fatigue driving system and on-board diagnostics dongle. Those solutions can be tailor-made for various fleets.

LumenCache @US Smart Home Lighting and Power Control

www.lumencache.lighting

The LumenCache platform replaces traditional 110V AC power distribution in buildings with the new DC power standard more appropriate to the low power needs and digital capabilities of electronic devices including LED lights.

LumenCache spares us the high expenses on bulky high-voltage AC-DC conversion circuitry, as it connects lighting technologies together using modern structured wiring, and adds reliable Internet of Things control features such as local energy storage, rooftop sources and automatic data sensors.

10

oneCHARGE Solutions Limited @HK Electric Vehicle Charging Station with Fast-charging Station

oneCHARGE

oneCHARGE Solution Limited has consisting few connected-smart products with fast charging station hardware, solutions and app. It acts as a centralized hub for charging station searching, controlling, monitoring, usage statistic analyzing over one hardware products into a single user interface.

Radar Based Smart Building / Security Solutions

- 0.001% Miss Detection / False Alarm rate
- Presence detection via vital sign detection.
- People Counting System with Radar (3X more area than camera)
Object Detection as small as 0.01mm

Radar Based Non-contact Health Monitoring

- Resting Heart Rate / Breathing Rate
- Open-space fall detection (no wearable required)
- Sleep Apnea (AHI) monitoring
- Home PERS (Personal Emergency Response System)

Hong Kong Startup Council Chairman

Dr Jack Yeung

**Chief Executive Officer
Ace Corporation Holdings Ltd**

**Deputy Chairman
Federation of Hong Kong Industries**

**Group 14 Chairman
Hong Kong Mould & Die Council, FHKI**

Dr Jack Yeung is the Chairman of Ace Corporation Holdings Ltd and the Founder of OIC Concept Ltd. He is also the Chairman of FHKI's Group 14 (Hong Kong Mould & Die Council) and FHKI's Hong Kong Startup Council. He serves as the Chairman of the Innovation and Technology Venture Fund Advisory Committee under the Innovation and Technology Commission, and Member of the Innovation and Technology Fund Research Projects Assessment Panel, the Hong Kong Trade Development Council Innovation and Technology Advisory Committee, the Qualifications Framework Industry Training Advisory Committee - Manufacturing Technology (Tooling, Metals & Plastics) and Advisor of Hengqin FTZ (Hong Kong) Representative Office. Dr Yeung is also a Venture Partner of OurCrowd, an equity crowdfunding platform based in Israel, Board and Advisor of Social Ventures Hong Kong and Honorary Advisor of Christian Action Hong Kong.

Hong Kong Startup Council Vice Chairman

Mr Jason Chiu

**Chief Executive Officer
Cherrypicks**

**Group 30 Chairman
Innovation and Creative Industries Council, FHKI**

Mr Jason Chiu is the founder and CEO of Cherrypicks, a leader in mobile innovation, specializing in making cities smarter and growing the eLearning community. Mr Chiu is the Chairman of Group 30 "Creative Industries" and Vice Chairman of the Hong Kong Startup Council of FHKI. He is the Director of the Hong Kong Crowdfunding Professional Association, the Advisor of Crowdfund Capital Advisors, a member of Innovation and Technology Fund – Small Entrepreneur Research Assistance Programme Project Assessment Panel, a Council member of the Hong Kong Trade Development Council, a Board member of the Junior Achievement Hong Kong, the Vetting Committee of the Pilot Information Technology Development Matching Fund Scheme for Travel Agents, Travel Industry Council of Hong Kong, as well as the Convenor of the SME & Young Generation Working Group of the HKTDC Belt and Road Committee.

The Lead of Smart City and Eco-home Cohort

Prof Daniel M Cheng

**Managing Director
Dunwell Enviro-Tech (Holdings) Limited**

Honorary President of Federation of Hong Kong Industries

Ir Prof Daniel M Cheng is the Managing Director of Dunwell Technology (Holdings) Limited, Honorary President of FHKI, President of the Hong Kong Environmental Industries Association, Board member of Business Environment Council and Deputy Chairman of Hong Kong Green Strategy Alliance. Prof Cheng is also a Fellow of Hong Kong Institute of Engineers and the Registered Professional Engineer.

Prof Cheng also serves as a Member of the Chief Executive's Council of Advisers on Innovation and Strategic Development, the Advisory Committee on Water Resources and Quality of Water Supplies, the Committee on Innovation, Technology and Re-industrialisation, the Advisory Committee on Recycling Fund, the Steering Committee on the Promotion of Electric Vehicles, and the HKX Advisory Committee.

Business Advisor and Mentor

Mr Johnny Chan

President of APEF Organizing Committee

HK Venture Capital & Private Equity Association (HKVCA)

Mr Johnny Chan, co-founded Techpacific Capital Limited, which became Crosby Capital Limited in 2002. He is the President of the HKVCA (Chairman 2007 - 2011) and concurrently, as the Secretary General of the Asia Venture Capital and Private Equity Council (AVCPEC). He was a member of the Advisory Committee on Innovation of Technology of HKSAR Government from 2015 - 2017. He is a member of the HKTDC Innovation and Technology Advisory Committee from 2014 - 2018 and HKTDC Service Promotion Programme Committee (SPPC) since 2015. He was appointed as a member of the Cyberport Advisory Panel in June 2017. He is the Director of Repton School and a Director of the Make A Difference Institute.

Mentor

Mr Andy Ann

**Founder & CEO
NDN Group (HK) Limited**

Mr Andy Ann is the founder and CEO of NDN GROUP, a digital media and consulting firm established in 2002. He has guided NDN to become an expanding and profitable enterprise with a diversified group of global clients. In 2008, he founded Hot Mob, which is now one of the leading mobile advertising companies with over 4 billion mobile impressions served. In the same year, he was awarded as Young Entrepreneur Winner of DHL and SCMP Hong Kong Business Award. In 2012, he founded Klarity Analytics, a Big Data analytic platform monitoring over 55,000 brands worldwide. In 2013, he was awarded as Young Entrepreneur Winner of Piaget.

Mentor

Mr Austin R. Bryan

**Senior Director – Innovation
CLP Power Hong Kong Limited**

Mr Austin R. Bryan joined CLP Holdings in May 2016 as Senior Director – Innovation, leading the company’s innovation strategy in the face of challenges presented by digital disruption. He is also a Director of various subsidiary companies of the CLP Group. Austin has been a pioneer of new services and value creation in the digital media sector for the past 10 years and is a globally recognised leader in transforming business activities in the financial and telecommunications sectors.

His experience spans across the creation of the first direct banking activities in Germany in the early 1990s to the introduction of virtual customer service platforms for American Express and creation of the first 3G multimedia mobile network in Australia with “3 Mobile”. Most recently he was the Vice President of Strategic Innovation at Singtel Optus, in which he led the acquisition of major digital media projects and

- created a US\$1 billion digital media business developing and implementing new digital products and services.

Mentor

Ir Cary Chan

**Executive Director
Hong Kong Green Building Council**

Ir Cary Chan is a professional engineer and is currently the Executive Director of Hong Kong Green Building Council. Over the years, he has carried out a lot of researches and energy-saving initiatives with substantial improvements in energy performance of buildings. Some of his works have won international awards, which includes Client of the Year - Low Carbon Operation Award by the Chartered Institution of Building Services Engineers in 2010. Ir Chan is also active in serving the professional and business communities with his expertise.

Mentor

Mr Alan Cheung

**Founder & Managing Director
Grandion Industrial Limited**

**Group 31 Chairman
Design, FHKI**

Alan founded Grandion Industrial Limited (a member of Grandion Group) in 1996, an apparels supply chain and O2O solution provider with production facilities located in China and Hong Kong.

Being an awardee of the Young Industrialists Awards of Hong Kong in 2011, Mr Cheung has been serving as members of different committees of HKSAR Government and NGO. He also actively supports the creative designers and startups to develop their branding businesses by serving as their mentor and to collaborate with the social entrepreneurs to improve and solve the societal issues through social innovations.

Mentor

Ms Joanne Chow

**Director
Aussco Hong Kong Limited**

**Group 12 Chairman
Knit garments and other knit made-up goods, FHKI**

Ms Joanne Chow is the Director of Aussco Hong Kong Limited, a textile manufacturing company her grandfather founded nearly 60 years ago. Since she joined Aussco in 2006, she has been particularly keen on supporting fashion brands to grow their collection. In 2012, she founded A Matter of Design and introduced Denmark's retail furniture chain BoConcept and a British lighting and furniture brand Tom Dixon Studio to the Hong Kong market. Her contributions have led the company to expand and diversify its business scope to span across textile, fashion, homeware and lifestyle sectors. Most recently in 2018, Joanne founded azalvo, an ideas lab where businesses are fast tracked to develop their business in a collaborative manner. She graduated from Syracuse University in the United States with a degree in Public Relations and Policy Studies.

Mentor

Ms Martha Hao

**Business Consultant / Advisor
Wise Ally Holdings Limited**
